## PEANUT BUTTER GIVES RICH FLAVOR TO NUMEROUS DISHES

Peanut Butter Can Be Made Easily at Home by Putting Freshly Roasted Peanuts Through a Meat Grinder.

Besides making an excellent sandwich filling, peanut butter can be used to give flavor to a number of dishes that are cheap, easy to make, and very wholesome. The "butter," which really is just finely ground peanuts to which salt has been added, can be made at home very easily by putting freshly roasted peanuts through a meat grinder after the red skins have been removed from them. The machine should be adjusted to grind as fine as possible. If salt is added to the nuts before they are ground it is generally mixed in more thoroughly. The following recipes, which are a little out of the ordinary, are recommended by home economics specialists of the United States Department of Agriculture.

As a Substitute for Meat.

Meat substitutes, especially for luncheon or supper, have been found by many housekeepers to be a successful way of keeping down the food bill and of giving more variety to the meals. Peanut butter soufflé has a rich, nutty flavor and fluffy texture, and when made by this recipe supplies a little more protein and considerably more fuel than a pound of average beef. With eggs at 60 cents a dozen and peanut butter at 35 cents a pound the materials will cost about 35 cents and will serve about four persons.

Peanut Butter Soufflé.

2 1/2 cupsful peanut butter, 1 cupful soft, stale butter, 1 cupful tomato juice, 1/2 cupful onion 3 eggs.

Mix together the first five ingredients, add the well-beaten yolks of the eggs and fold in the stiffly beaten whites. Pour the mixture into a buttered baking dish and cook in a moderate oven for about 20 minutes. If desired, water and a little lemon juice may be used instead of the tomato. Serve the soufflé with tomato sauce made as follows:

2 teaspoonfuls but- 1/2 teaspoonful ter or other fat, salt, 1 1/2 tablespoonfuls 1 cupful tomato flour, juice.

Melt the butter, add the flour and cook for about a minute. Add the tomato juice and salt and stir the sauce until it thickens. Either skim milk or water flavored with tomato catsup may be used instead of the tomato juice in making this sauce.

An Economical Pudding.

A cottage pudding without eggs, butter or milk may seem like no pudding at all, but here is a recipe for peanut butter cottage pudding that is nutritious and good even though it contains none of these things. Moreover it is so hearty, that the main part of the meal may be somewhat less substantial than usual.

Peanut Butter Cottage Pudding.

1 teaspoonful salt, 1/2 cupful peanut butter, 1/2 cupful soda, 1/2 cupful water, 1/2 cupful flour, 1/2 cupful sugar.

Sift the flour, salt and soda together. Combine the water, peanut butter, lemon juice and sugar, and stir in the dry ingredients. Beat the mixture thoroughly, bake it in muffin pans, and serve with chocolate or other pudding sauce. If desired, four teaspoonfuls of baking powder may be substituted for the soda and lemon juice.

Peanut Butter Drop Cookies.

Cookies with chopped peanuts in them or on the top have long been favorites in many families. Cookies made by the following recipe have the same rich flavor and are economical because the peanut butter replaces eggs, milk and butter in the ordinary recipes for sugar cookies, and are easy to make because the peanuts are already ground. Children, particularly, will enjoy these cookies if given to them with milk or with a simple dessert.

1 cupful peanut but- 2 cupfuls flour, 1/2 cupful sugar, 1/2 cupful soda, 1/2 cupful water, 1/2 cupful sugar.

Rub together the peanut butter, sugar and lemon juice, and add the flour, in which has been sifted the salt and soda. Gradually stir in the water. Drop the mixture by spoonfuls on a greased tin and bake for about 20 minutes in a moderate oven. If desired two teaspoonfuls of baking powder may be used instead of the lemon juice and soda.

Peanut Butter and Tomato Soup.

A soup as nutritious as the ordinary purée of vegetables may be easily made as follows:

1/2 cupfuls peanut 1/2 teaspoonful paprika, 1/2 cupful tomato 2 1/2 cupfuls boiling water, 1 teaspoonful salt.

Add the tomato juice gradually to the peanut butter, and when smooth add the seasonings and water. Simmer for ten minutes and serve with croutons. Well-seasoned soup stock may be substituted for the water; but, if

USEFUL IN MAKING ICE CREAMS AND SHERBETS AND FOR COOKING PIES, PRESERVES, JELLIES AND VARIOUS OTHER DESSERTS.

That the utilization of freezing storage for the preservation of berries, other small fruits and tomatoes could be profitably extended is the belief of specialists of the bureau of markets, United States Department of Agriculture. Many ice cream manufacturers and canners would be benefited by adopting practicable methods of holding such products for manufacturing purposes, say the specialists.

It is pointed out that the preservation of fruits by freezing is cheaper than canning them, especially when tin containers are scarce and costly as at present; and that the frozen fruit, held at the proper temperatures, has a more natural flavor than canned or dried fruit. The experimenters found fruit preserved by freezing to be fully as satisfactory as fresh fruit and superior to canned or dried fruit for use in making ice creams and sherbets, and for cooking into pies, preserves, jellies and other desserts and confections. The frozen fruits after thawing are not well suited for eating alone in a raw state, but are considered very palatable when eaten before they have completely thawed. When used as ingredients for desserts and confections best results will be obtained if they are combined before they are free from ice.

RABBIT PIE

Skin, draw and cut a rabbit into pieces; put into stew pan and cover with boiling water. Cook until very tender. Remove meat from the broth and concentrate the broth to about one-half. Pick the meat from the bones in as large pieces as possible. Thicken stock with one tablespoonful flour per cupful of broth and pour over meat. Add two tablespoonfuls salt and one-eighth teaspoonful pepper. Line the sides of a baking dish with crust, either a rich baking powder biscuit dough or pie paste, add meat mixture, cover with crust and bake in hot oven 30 minutes.

HOUSEHOLD HINTS

Steaks and chops are higher in price than roasts and contain more waste.

In ironing a shirt always iron the body part first, then the bosom and cuffs.

When making creamed tomato soup mix a little soda with a teaspoonful of corn starch and add it to the cream before pouring it into the tomato mixture. This will prevent curdling.

## Wiles of Promoters

When an unscrupulous promoter of worthless stock thinks he can "sell you" he puts your name on his "sucker list."

He tries to make an impression upon you by suave manners, smooth talk, and luxuriously appointed offices.

If by these superficial methods you are trapped into buying, he then sells your name to some other promoter, who is willing to pay for the names of "gullible buyers?"

Avoid these wiles and consult only those who are experienced in investments and who sell well-seasoned securities.

We are in a position to advise prospective investors without charge or obligation.

## Action or Reaction

One of our Governors of a great state in the Central West began as a poor farm hand, in turn a tenant, then a farmer of his own land and finally a recognized authority on farm management and farm markets.

He followed always one fixed principle: He held that the time to expand activities in any direction was when others were beginning to reduce or abandon their activities in that line. He began when others quit. As long as he lived he put his theory to the test on his own farms, and his remarkable success proved its correctness.

Today many farmers are uneasy and are said to be considering easing up on their efforts to produce.

Is the solution of the trouble to be found in giving up the use of things that have proved profitable in the past or in sitting down and watching others go forward while you go backward.
